A conversation about books

Professor Gabriel Brownstein talks about his new book *The Secret Mind of Bertha Pappenheim: The Woman Who Invented Freud's Talking Cure* in conversation with Dr. Steve Mentz

WRITING CENTER BACK LOUNGE

Tuesday, October 1st

3:30PM-4:30PM

Refreshments Provided

“Fresh and fascinating ... A riveting look at the boundaries between neurology and psychology and the gender dynamics of medicine.”

---PUBLISHERS WEEKLY

“Fascinating ... Brownstein could have written a much easier book than the one he did ... Brownstein is allergic to answers. He likens himself to a “conscientious archaeologist” and leaves it to his readers to draw their conclusions based on the specimens he places before us.”

---THE NEW YORK TIMES BOOK REVIEW

“Fascinating if uneven ... In his effort to reunite the alter ego with the person, Mr. Brownstein scours the historic record for details Breuer left out ... Most intriguingly, he reassesses Pappenheim's ailments through a 21st-century neurological lens.”

---THE WALL STREET JOURNAL
